

## No Hair?

"My hair was falling out very fast and I was greatly annoyed. I then used Ayer's Hair Vigor and my hair stopped falling out."

The trouble is your hair does not have life enough. Act promptly. Save your hair. Feed it with Ayer's Hair Vigor. If the gray hairs are beginning to show, Ayer's Hair Vigor will restore color every time.

It now drops out again, and you can get it back again by using Ayer's Hair Vigor.

When any one but M. Levesque saw you...  
Do you suspect any one else?  
You declare yourself to be innocent...  
The guilty party must be M. Levesque.  
Proper did not answer.  
The judge, however, continued the judge...  
The prisoner preserved a rigid silence.  
"Yes, monsieur," said the judge...  
The judge then turned to the jury...  
The jury then returned a verdict of guilty...  
The judge then pronounced the sentence...  
The prisoner was then taken to the prison...

# Hair Falls

"I used Ayer's Hair Vigor every day from falling. One bottle cured me."  
J. C. Carter, Montreal, N.S.

Ayer's Hair Vigor is certainly the most economical preparation of its kind on the market. A little of it goes a long way. It doesn't take much of it to stop falling of the hair, make the hair grow, and restore color to gray hair.

It is made of the best ingredients, and is sold everywhere.

**FORBEARANCE PLEASE**

HYPERCITIZENSHIP ONE OF THE GREAT SIGNS OF PRESENT AGE.

OUR RIGHTS AS TO ALL OTHERS.

Chicago, Aug. 10.—A plea for forbearance and the magnanimous treatment of offenders in made by Rev. Frank the Wits. The speaker in this sermon on the text Matthew 18, 4, Judge not, that ye be not judged.

After Massillon, the great court preacher of France, had finished one of his sermons, Louis XIV., summoned him to his side and said: "Massillon, I am not a philosopher, but I am a king. I have heard many great statesmen preach. They nearly always advise me. But when you preach, I am at once pleased with you, I am always left with a better opinion of myself as well as a better opinion of God."

The sin of transgression is almost universal because one is apt to consent to it at once unconsciously without pretensions or excuses. It is a part of young people's lives together. It is not a part of the lives of the old. It is not a part of the lives of the old. It is not a part of the lives of the old.

I like to see the names of the conspirators being put in circulation, and I am not considering him to be doing him every little bit of harm that I can. I am not considering that I am doing him any harm, but I am writing to a certain one, St. Henry, to send him a telegram containing an account of the information that I have learned and especially about Rastan. The reply was an answer: "The Quebec police are not going to place any members of the family named Piquet."

The next day, among the letters I received, the name of St. Henry was also listed, because him, who was the first to be arrested, was also the first to be released.

"Y" WORK IN PICTON, ONTARIO.

The "Y" in Picton this past season has, as usual, reached out in various directions, in its efforts to do good, the greater part of which, however, might be included under the Deacons' work, supplemented by that of the other members of the Society, the holding of regular social meetings, and the essentially temperance work. An attempt will be made to give the members of the Deacons some idea of each of these branches.

With the ordinary work of a Deacons' they are generally active in the military, yet unless it could be waited at first hand, probably little exception could be had of the fact that the Deacons and spiritual help given by one such devoted member.

Throughout the town, for instance, with six months she has made in Picton six children, who are now all in the hands of the Deacons, and are being brought up in the most Christian and moral manner. The Deacons are also active in the work of the Deacons, and are doing much to help the poor and the sick.

Many of the farmers are still busy in the harvest, the wet weather having prevailed them from getting their crops in. The Deacons are also active in the work of the Deacons, and are doing much to help the poor and the sick.

Effective work has also been done by some of the members of the "Y" among the town. The Deacons are also active in the work of the Deacons, and are doing much to help the poor and the sick.

After Shaving, PONDY EXTRACT. The Deacons are also active in the work of the Deacons, and are doing much to help the poor and the sick.

Unequalled Health Food.  
---

Thousands of really respectable people are quite indifferent to the requirements of the stomach, unless that when is seriously distressed. Four breakfast grain foods soon interfere with digestive vigor. When Malt Breakfast food is regularly used each morning, perfect digestion, bodily energy, and appetite will be your reward. There is no troublesome starch in Malt Breakfast Food over its particles so nourishing. The food is medical sanitation say all. Breakfast Food is an unequalled path food for young and old.

The harvest dinner in connection with the Methodist church, was a decided success. The day was all that could be desired, and from early until noon people could be seen making their way to the grove. The refreshments were furnished by the ladies of this place, assisted by some ladies from the Scott neighborhood, and were a credit to all concerned. After dinner, the meeting was called to order by Mr. J. R. Fraser, of Naperville who had been especially invited to be present and act as chairman. The music was furnished by the Arden quartet, the first-class. Addresses were delivered by the chairman, Mr. Fraser, and Messrs. Henry Scott, Samuel Berber, Daniel Scott, William McGregor, Gilbert Thompson and the Rev. A. C. Huffman.

Wm. McGregor, who succeeds Mr. M. Smith, as agent for the Royal and Western Fire Insurance Company, went to Sharbot Lake on business.

Our school is progressing favorably this Miss Johnston as principal.

MEADOWS, MINN.

The members of our League visited the Violet League on Tuesday evening. They took part in the evening's entertainment. All returned home in the best of health and report a very enjoyable time.

Among the number that left on Monday for Toronto Expedition were Mr. and Mrs. Jacob Bell, Emma Frank Lake, Arthur Fraser, Sperry Fraser, Marcus Smith, Frank Ross, George and Mr. and Mrs. Chas. Bell.

Mr. Lindsay, of Ottawa, plans to give a singing class on Sunday evening on his return to Toronto.

Thrilling in the order of the day. The record was broken at Mrs. E. M. Smith's by Mr. Hartman, of Ottawa, who thrashed 3,000 bushels in one g. Best that if you can

**A CLIMATIC REVOLUTION?**  
Evidence continues to accumulate, says the Daily News, tending to show that something has gone awfully wrong with the earth's climate system in temperate zones. To add to the reports of frost and snow, which are the norm for this time of year in the north, the report that meteorological data has been lost from the last mid-winter, possibly during the last week of January, adds to a number of places on the Indian Peninsula, a severe winter, which, according to the Daily News, is "phenomenally unprecedented" for the time of year. The report also says that for these weeks a warm climate by spring to the River will find itself cold as mid-winter in the report. The cause may be of all that climatic phenomenon it is difficult to say. Some think it may be due to volcanic activity, which is the case with the eruption of Mount Pinatubo, disturbing them more solid than the tropics. Others suggest a phenomenon of the atmosphere.

cooling down of the ocean currents, and the superincumbent air by the seabeds finding their way south, and yet others have been for some time past warning us that, in consequence of the Gulf Stream and other currents which are supposed to set up submarine warming apparatus for Western Europe, having become distorted from their course, we must expect a generally lower temperature in future, and probably, in course of time, these islands may become ice-bound.

LETTERS TO THE EDITOR.

Tinsworth and Vicinity.

The Editor of the Beaver.

Dear Editor,—Having had occasion to take a trip through the back country, I thought I would drop you a line stating some of the results of my notes from the places. First of all, wherever I went the farmers are raising the best crops. I say who have threaded state that the yield is abundant and the straw used, as can be seen in many places along the way. For instance, as I came to the homestead of Mr. W. J.

Just west of Tamworth, I moved a stack of straw of enormous size. In former years it stood in the open place but was not more than 10 ft. high. After the threshing and the enormous straw was taken from what I could see the straw was full of hay and anthraxed. I believe Mr. John Hatch purchased the farm from Mr. Paul this morning. I could not help noticing the improvements all through the country, especially in the Village of Knoxville. A beautiful residence has been built and the residence of a priest of the church and cathedral. The architecture is unique and artistic in all parts and adds to the beauty of the church and school house. A large addition has also been added to the church, making the church large and airy with vestry rooms and aff-

... pertaining to the services of  
church. I arrived at Tanaworth, on  
the village and with  
at pleasure the row of beautiful  
from that have been erected this  
which were burnt down by the  
of Feb. 14, 1862. They are a fine  
design and have very well built in  
at. Also, I noticed the fine cor-  
pus placed on or in front  
now black which adds to the  
scenic.

... now thing that struck me unfavor-  
on entering the village from Er-  
ville road was the way the street  
allowed to be littered with every  
corner of old vehicles and machinery  
of various description. This street was  
especially filthy and unkept, — de-  
serving the appellation that any pri-  
vate citizen might wish to make on his  
of a sanitary town. Talking of

most common. I found great  
expansive; in fact, after what I  
and especially what I saw, I  
surprised at the neighbor of the  
ness that should have the good of  
village at heart and to put the  
primary they have in motion to  
the "Copperhead" I was told that  
one had the drive in going  
some of the churches, they were  
salt and other stuff being allowed  
the public streets. Some of the  
on or board walks are so narrow  
a barrel of salt or box taken  
in these half of the road and to  
it then, have to go to the extreme  
of the walk and then a horse  
will fly up and give them a  
kick which will make them  
the severity of a cannon shot. On  
the streets people are entirely good  
only down street is Ottawa, M.
